Why 42? The Korea Trip Selection Flow

XOlympiad | S.T.E.A.M.S | One student from every stream and every level

1 — 7 Levels

Class 7, 8, 9, 10, 11, 12 and Undergraduate

2 — 6 Streams

S . T . E . A . M . S - Science, Technology, Engineering, Arts, Mathematics, Space

3 — 1 Winner per Cell

Exactly one student is selected from every stream in every level

4 — 6 x 7 = 42

42 students form the XOlympiad delegation to Korea

The 6 streams (one winner from each, at every level)

- **S** Science
- **T** Technology
- **E** Engineering
- **A** Arts
- **M** Mathematics
- **S** Space

How a student gets selected

1. Student registers in their level (Class 7 to Undergraduate) and chooses a stream
2. Students compete in the XOlympiad within their own stream and level
3. The top-ranked student of each stream + level pair is shortlisted (rank 1 only)
4. Documents and eligibility are verified (class 5 & 6 are not eligible)
5. Final 42 are confirmed, one for each of the 42 stream-level slots

Not eligible for the trip

Class 5 & 6

Students of Class 5 and Class 6 can take part in XOlympiad, but they are not eligible for the Korea trip. Only Class 7 to Undergraduate count towards the 42.
